RE: RCS Testimonial

RCS have held various contracts covering a range of services for Severn Trent Water for a number of years. Our continual working relationship is based upon the high level of service that Reynolds Cleaning Services supply.

RCS have a team of dedicated professional staff who are available and flexible to our requirements. Their Service Level Agreements are met consistently and management assessments are always accurate, ensuring we have the best possible staff for the job in hand.

It is also very important to mention RCS' Environmental Awareness training for their staff and a comprehensive Green Policy which is adhered to with marked scrutiny.

RCS are a professionally run service provider. They have a dedicated team whose role in helping our business requirements is not underestimated. If you require any further information please contact our Contracts Department on 0800 783 4141.

Yours faithfully

R. Howe
Contract and Resource Dept.
